

Feedback Expectations at Ambleside

Child Facing Feedback Toolkit

- Use of gold for great and green for growth consistently
- All children are given 'live in the moment feedback' verbally to push progress and challenge children to think hard.
- Adults and children to have their teacher toolkit. (red pen, green pen or pencil, gold and green highlighter, pink highlighter, ruler)
- Explicit instruction is given, along with high quality modelling.
- Staff to target children who need supporting or challenging based on fluid assessment for learning.
- Children must respond where green for growth is given and adults must ensure that this is completed with high standards.

Child Facing Transcription Toolkit

- We have high expectations in all subjects in relation to transcriptional fluency and subject specific content knowledge and vocabulary. Feedback across all subjects is 'Live in the moment' where possible.
- Where live feedback is not possible for an individual child in the session, this child's work will be reviewed after the lesson and feedback shared with the child at the beginning of the next session.
